**The Original Languages.** From Daniel 1:1-2:3 the language employed is Hebrew. But then the prophet switches to Chaldee (or Aramaic) from Daniel 2:4 - ch.7. Then, from Daniel 8 - 12 he resumes with Hebrew. it is no coincidence that the Hebrew portions have to do with the Jewish remnant, and the Aramaic portions have primarily to do with gentile dominion.

**Dreams and Visions.** The first half of the book (ch.1-6) have to do with dreams and visions given to the Gentile monarchs, and the meaning of them. From ch. 7-12 we have dreams and visions that were given directly to Daniel.
